

For adults with heart disease

 **Repatha**<sup>®</sup>  
(evolocumab) injection  
140 mg/mL

**BECAUSE YOU'RE  
HUMAN**

**Up to 90% of people dramatically lowered their bad cholesterol (LDL) with Repatha<sup>®</sup> plus a statin to 70 mg/dL or below**

### What is Repatha<sup>®</sup>?

Repatha<sup>®</sup> is an injectable prescription medicine used:

- in adults with cardiovascular disease to reduce the risk of heart attack, stroke, and certain types of heart surgery.
- along with diet alone or together with other cholesterol-lowering medicines in adults with high blood cholesterol levels called primary hyperlipidemia (including a type of high cholesterol called heterozygous familial hypercholesterolemia [HeFH]) to reduce low density lipoprotein (LDL) or bad cholesterol.

### Important Safety Information

**Do not use Repatha<sup>®</sup> if you** are allergic to evolocumab or to any of the ingredients in Repatha<sup>®</sup>.

# WHY IS MANAGING BAD CHOLESTEROL IMPORTANT?

**High bad cholesterol is one of the most important factors you can control in reducing the risk of a heart attack.**

- ♥ When left uncontrolled, bad cholesterol leads to plaque buildup, which narrows and reduces the flow of blood through your arteries.
- ♥ Excess plaque may cause clogs, putting you at risk of a heart attack, stroke, or need for a stent or bypass surgery.
- ♥ If you have already experienced one of these events or procedures and have heart disease, the American Heart Association recommends to add additional cholesterol-lowering medicines if your bad cholesterol level remains at or above 70 mg/dL.

**That's why it's important to talk to your doctor to come up with a plan to reduce your bad cholesterol that may include lifestyle changes and cholesterol-lowering medicines.**

# HOW REPATHA® WORKS

For adults with heart disease

## Repatha® works differently than a statin.

- ♥ Statins help stop your liver from making as much cholesterol, and increase its ability to break down cholesterol that is already in your blood.
- ♥ Repatha® **helps the liver clear bad cholesterol** by limiting the actions of a protein called PCSK9—and less PCSK9 means less bad cholesterol in your blood.

Talk to your doctor about adding Repatha® to your regimen.

## Taken together, Repatha® plus a statin is proven to dramatically lower bad cholesterol.

- ♥ Repatha® **goes to work fast**, bringing bad cholesterol down in just **1 month**. By adding Repatha® to a statin, patients were able to achieve a 63% average reduction in bad cholesterol levels in just 3 months.
- ♥ Repatha® plus a statin is proven to significantly reduce your chance of heart attack **by 27%**.
  - In a study, patients not treated with Repatha® had more heart attacks (4.6%) compared to those treated with Repatha® (3.4%).

### Important Safety Information

**Before you start using Repatha®**, tell your healthcare provider about all your medical conditions, including if you are allergic to rubber or latex, are pregnant or plan to become pregnant, or are breastfeeding or plan to breastfeed.

SUMMARY OF TERMS AND CONDITIONS

It is important that every patient read and understand the full Repatha® (evolocumab) Copay Card Terms and Conditions. The following summary is not a substitute for reviewing the Terms and Conditions in their entirety.

As further described in the full terms and conditions, in general:

- The Repatha® Copay Card is open to patients with commercial insurance, regardless of financial need. The program is not valid for patients whose Repatha® prescription is paid for in whole or in part by Medicare, Medicaid, or any other federal or state programs. It is not valid for cash-paying patients or where prohibited by law.
• With the Repatha® Copay Card, a commercially insured patient who meets eligibility criteria may pay as little as a \$5 copay per month for their Repatha® monthly out-of-pocket costs. Monthly out-of-pocket costs include copayment, co-insurance, and deductible out-of-pocket costs. Amgen will pay the remaining eligible out-of-pocket costs on behalf of the patient up to a Maximum Monthly Benefit, a Maximum Annual Program Benefit and/or the Patient Total Program Benefit. Patients are responsible for all amounts that exceed these limits.
• The program provides assistance up to a Maximum Monthly Benefit except that the Maximum Monthly Benefit will not apply to the first three (3) fills of the Repatha® Copay Card for Repatha® in any given calendar year.

- Offer is subject to change or discontinuation without notice.
• The Repatha® Copay Card provides support up to the Maximum Monthly Benefit, the Maximum Annual Program Benefit and/or Patient Total Program Benefit. If a patient's commercial insurance plan imposes different or additional requirements on patients who receive Repatha® Copay Card benefits, Amgen has the right to reduce or eliminate those benefits. Whether you are eligible to receive the Maximum Monthly Benefit, Maximum Program Benefit or Patient Total Program Benefit is determined by the type of plan coverage you have. Please ask your RepathaReady® counselor to help you understand eligibility for the Repatha® Copay Card, and whether your particular insurance coverage is likely to result in your reaching the Maximum Monthly Benefit, the Maximum Annual Program Benefit, or your Patient Total Program Benefit, by calling 1-844-REPATHA (1-844-737-2842).
• Please see the full Terms and Conditions at [Repatha.com/copay](http://Repatha.com/copay).

STORIES

# REAL PATIENT STORIES

For adults with heart disease

Remember, you're not alone. Millions of people have bad cholesterol. After having a heart procedure and suffering a cardiovascular event, these two real patients were able to get their bad cholesterol back on track with Repatha®.

Hear more patient success stories when you visit [Repatha.com/stories](https://www.Repatha.com/stories)

—Andy

“I always struggled to get my cholesterol down to an acceptable level and **I couldn't get LDLs under 100**. After being on Repatha for not even months, **my LDLs went down to 26**. Repatha changed the game.”\*

*Individual results may vary.*

“With Repatha, **my LDL had dropped from over 100, down to 40**. My grandchildren know I have Repatha, and they know it's working for me.”\*

*Individual results may vary.*

—Cathy

\*Patients lowered bad cholesterol by an average of 63% in 3 months.

**Ask your doctor if Repatha® is right for you.**
